# SUPER HIGH RESOLUTION FIXED LENS VANDAL DOME CAMERA

The Performance Series rounds out Honeywell's camera portfolio with a variety of indoor, outdoor and low light cameras that lets end users pick the perfect camera for virtually any installation. Ideal for a diverse range of applications, the Performance Series includes a wide range of high performing IR bullet cameras and mini-domes that are easy to install and even easier to use.

The HD50 is a rugged indoor/outdoor fixed mini-dome camera. The high-impact dome housing is vandal resistant and weather tight. The integrated housing protects the camera from dust, dirt and water as well as physical harm from strong external impacts (for example, hockey sticks or sledgehammers). The visually appealing low profile design blends with its surroundings, making the HD50 the obvious choice for architecturally sensitive installations. The HD50 incorporates a 1/3" CCD that offers 530 TV lines of crisp, clear horizontal resolution. The cameras come equipped with a built-in fixed lens (f=3.8 mm) and a 3-D axis gimbal that is capable of 360° of pan, 180° of tilt and 360° of horizontal rotation.

The HD50 installs quickly and easily. It comes standard with a two-conductor pigtail that connects to the barrel connector so there is no need to cut wires during installation. The HD50 is designed for use in challenging environments. It is IP66 rated for outdoor installations, but can also be installed indoors, mounted directly to a ceiling or wall.

### Market Opportunities

The HD50 is a cost effective surveillance solution for applications that experience changing light conditions throughout the day and require extra illumination at night. The HD50 offers a simple yet solid design that provides optimum performance for both indoor and outdoor applications including lobbies, atriums, vestibules, gated entrances, foyers, loading docks and driveways.
